Ideas for Usage

Set Up:

Take 2 file folders, glue/staple the back of the first one to inside left of the second one. This creates a center inside section consisting of 3 parts. In addition, it also makes a storage pocket in the back. Glue the 3 pages in order to the inside 3 parts of the file folders.

Make separate learning centers for each student. The learning center is designed to be reused for each new surah studied.
